

SHIFNAL AND PRIORSLEE PATIENT PARTICIPATION GROUP

All doctors' practices now have to have a Patient Participation Group which creates opportunity for dialogue between practices and patients.

In Shifnal this has been in place for some years. We meet about every 6 – 8 weeks to exchange information and news, especially for the practice to update patients with the latest developments at the practice, and for the group, as patients, to feed back experiences and comment about changes which could be made to benefit patients.

We urgently need more patients of the practice to join the group, and we especially need a Secretary to help the Chairman with running the group, and to take minutes at the meetings. Some younger members would be really beneficial. We currently meet at the Old Fire Station, opposite the surgery in Shrewsbury Road, usually on a Monday at 1 pm but this could be changed in the future.

Anyone interested is very welcome to phone or email me to talk about this.
